- MR. CHAVEZ: Lee Chavez, Bishop California, Paiute. I can't speak on behalf of my tribe, formal tribe. I
- 1 can speak for myself. I fully back everything that the spokesperson for the group, Richard Arnold, had said, all the statements he presented earlier.
- 2 I also believe that the 90-day period for comments should be in place. That's common. That's the standard. And what else? Took too long to get over here. Oh, yeah. The reason I can't speak on behalf of the tribe because we have a five member board and I can't speak for the other five members until they get all the information. I do not know at this time if they do have the information or not for them to make a decision or any kind of comments, but I do feel that that they would be behind the group, but again I'm not saying that they are. And until they have further time to go over the material and make decisions and get back to DOE, I can't comment on that. I left something out but.
